# SOTIRIOS PAPADAKIS

Horticulturist - Landscape Architect, CAD Specialist & International Press Correspondent

+30 6974 11 71 93 | sotiris@outdoordesign.gr | 15344 Kriezi St., Athens GR

## ABOUT ME

Strategic Landscape Architect with a 20-year track record in high-end design consultancy and site-specific engineering. Specialist in Nature-Based Solutions (NBS) and sustainable restoration, with a unique ability to resolve complex topographical issues through bio-engineering.

## EDUCATION

- BSc (Hons) in Floriculture & Landscape Architecture | University of Applied Sciences of Epirus (GR)
- Diploma in Computing & Technical Design Studies London computer college (GR)

## WORK EXPERIENCE

### SELECTED PROJECT PORTFOLIO

#### 1. INSTITUTIONAL & DIPLOMATIC PROJECTS

**EUROPEAN PARLIAMENT (ATHENS OFFICES)**

* Challenge: Urban pollution and strict building regulations in the historic center.
- Solution: Designed a sustainable courtyard using strictly natural materials (stone, gravel) to create an "urban lung" while respecting architectural heritage.

**ALGERIAN AMBASSADOR'S RESIDENCE (ATHENS, 2025)**

- Complete renovation and restoration of a historic diplomatic garden.

**CHILDREN'S HOSPITAL OF ATHENS (2024)**

* Designed a therapeutic "contact-with-nature" garden using strictly non-allergenic flora for pediatric patients.

## 2. STRATEGIC MUNICIPAL DIGITIZATION

### MUNICIPALITY OF AGIOS IOANNIS RENTIS (2009–2012)

- Role: Project Lead for the full digitization of urban green infrastructure.
- Scope: 3-year mapping project using Total Station and Interactive CAD systems.
- Digital Asset Management: Documentation of all irrigation networks (valves, pop-ups, controllers), electrical grids, and urban furniture across all public squares, parks, and road medians.

## 3. INFRASTRUCTURE & HIGH-SECURITY ENVIRONMENTS

### O.F.C. AVIATION FUEL SERVICES - ATHENS INTERNATIONAL AIRPORT (2006–PRESENT):

- Challenge: High-security zone with extreme soil and climatic conditions near aviation fuel storage.
- Result: 18+ years of successful landscape management, proving that industrial activity can coexist with thriving ecosystems.

### SOLARIS BUS HELLAS S.A. (2008)

- Specialist transplantation of centenarian olive trees and creation of natural privacy buffers for industrial facilities.

## 4. NATURE-BASED SOLUTIONS & BIO-ENGINEERING

### LUXURY COASTAL ESTATE, CYCLADES (2008–2013)

- Technical Achievement: Transformed a steep, barren mountain slope (16,000 m²) into a luxury Mediterranean landscape.
- Methodology: Used hydroseeding, geocells, and traditional dry stone walling for slope stabilization on sandy, erodible terrain.

### ST. JOHN THE BAPTIST CHURCH (2025 - COASTAL)

- Hydraulic Challenge: High water table and flooding risks due to sea proximity.
- Solution: Engineered a "Dry Well" drainage system combined with specialized sub-surface piping under gravel paths to maintain site permeability.

### 5. CORPORATE WELLNESS & HOSPITALITY

#### BNP PARIBAS HEADQUARTERS (2016)

- Created a multi-functional "Outdoor Office" for staff relaxation and corporate events, alongside 6 floors of interior biophilic design.

#### DASOS THERETRON 5 HOTEL (2019)

- High-altitude landscape design including professional athletic training grounds and private villa gardens in mountainous Nafpaktia.

#### DOGVILLE PET HOTEL (2025)

- Innovative "V.I.D." (Very Important Dog) resort featuring walking gardens, splash areas, and thermo-insulated dog houses with green roofs.

## TECHNICAL EXPERTISE

- 3D Environmental Visualization
- Digital Site Analysis
- Nature-Based Engineering (NBS)

## LEADERSHIP

Former General Secretary, Association of Greek Landscape Architects

## TECHNICAL MENTORSHIP & TUTORING

- Role: Professional Instructor in Computer-Aided Design (CAD).
- Experience: 20+ years of transferring design methodology and technical standards to Architects and Civil Engineers.
- Focus: Advanced 2D/3D technical documentation and environmental modeling.

## CREATIVE ARTISANSHIP | KONIPOT

- Role: Founder & Creative Director.
- Focus: Designing bespoke, handcrafted plant containers that serve as sculptural elements in modern landscapes.

## MEDIA & TREND ANALYSIS THE GARDEN MAGAZINE

- Role: Editor-in-Chief & VIP International Correspondent.
- Focus: Global trend analysis and coverage of premier industry events (Euroflora, MyPlant, GGP).
- Impact: Bridging international landscape innovation with Mediterranean application.
